

NetScore ShipStation Connector

For NetSuite

NetScore ShipStation connector for NetSuite delivers a customized order fulfilment connector. This integration helps you automate order synchronization, track number upload and connect your online store with ShipStation warehouses around the globe.

NetScore ShipStation connector is completely customizable for all types of NetSuite stores. Installation includes integration and configuration to match your NetSuite environment.

Benefits

Real-time Order Import and Export

Real-time order import and export, will help the user to ship products faster and in an efficient manner.

Real-time Dashboards

Real-time dashboards helps monitor sales and improve inventory decisions.

Synchronizes Inventory and Price Levels

Real-time inventory and pricing level synchronization between NetSuite and ShipStation. This prevents the creation of overselling orders in the ShipStation.

Error Handling Mechanism

Error handling mechanism improves ability to handle errors incurred during data transfers between NetSuite and ShipStation and vice-versa.

Simplifies the Order Process with Complete Automation

- Complete automation of sales process
- Easy handling of orders and returns
- Built-in error handling mechanism

The screenshot shows the 'ShipStation integration Setup' page in NetSuite. The page includes a header with 'ORACLE NETSUITE' and a search bar. Below the header is a navigation bar with tabs for 'Activities', 'Workplace', 'Transactions', 'Lists', 'Reports', 'Analytics', 'Documents', 'Setup', 'Customization', 'Amazon', 'ShipStation', and 'Jet Integration'. The main content area is titled 'ShipStation integration Setup' and contains several input fields for configuration. The fields are organized into two columns. The left column includes: NAME (Shipstation), OWNER (Naveen Netscore), DATE CREATED (1/8/2019 1:30 am), LAST MODIFIED BY (4/2/2019 6:11 am Hari Krishna), SHIPSTATION API KEY (131cbe8c82#48778311c928a4cf976e), and an INACTIVE checkbox. The right column includes: SHIPSTATION API SECRET (f0d1830eff654ac780e61706d520c72c), LOCATION (Alaska), SUBSIDIARY (Honeycomb Holdings Inc.), PRIMARY CUSTOMER, WAREHOUSE, NETSCORE LICENCE KEY (net-00bd3f0-0c80106-a045c1d-ccca6d5), DAYS REMAINING TO EXPIRE (20), SALES ORDERS EXPORT (ShipStation Order Export), ORDER FOLDER (698), USER, SS STORE ID (130726), and DEPARTMENT (Admin). Below the input fields is a section for 'Active Workflows' with a 'Workflow History' link. It includes a 'VIEW' dropdown set to 'Default', 'Customize View', and 'Refresh' buttons. A table with columns 'WORKFLOW', 'CURRENT STATE', 'DATE ENTERED WORKFLOW', 'DATE ENTERED STATE', 'OPTIONS', 'STATUS', and 'CANCEL' is shown, with the message 'No records to show.' at the bottom. The page ends with 'Save', 'Cancel', 'Reset', and 'Actions' buttons.
