- **Cross Docking**
- **RMA Management Receiving**
- **Cycle Counting**

# Benefits

### Enhanced Efficiency, Accuracy
Dramatically reduces errors in order fulfillment and inventory management through precise barcode scanning, ensuring smooth operations with minimal human error.

### Rapid Implementation, User Adoption
With its intuitive design and guided workflows, the application enables warehouse teams to become proficient within hours, minimizing downtime and boosting productivity quickly.

### Scalable, Customizable Solution
Tailor the platform to meet your business needs, whether a small operation or managing hundreds of thousands of SKUs, ensuring a perfect fit for your unique processes.

### Real-Time Inventory Control
Provides instant access to inventory data and updates, empowering you to manage stock levels, track items, and optimize warehouse space in real-time.

### Cost-effective, Flexible Deployment
Compatible with a wide range of devices, from tablets to rugged handhelds, offering a cost-effective solution that adapts to your existing infrastructure and budget constraints

### Quick Installation
Installs quickly from the Apple App Store / Google Play, and setting it up is easy and user-friendly.

# Features

### Real-Time Barcode Scanning for Accuracy
Ensure precise operations with barcode technology that supports quick and error-free scanning of serial and lot numbers, drastically reducing mistakes in warehouse processes.

### Customizable to Your Needs
Tailor the platform to fit your unique business requirements, leveraging NetSuite's powerful reporting and customization tools to deliver critical, real-time insights into your warehouse activities.

### Intuitive User Interface
Quickly onboard warehouse staff with an easy-to-use, guided application that   minimizes training time and maximizes productivity, making it accessible even for   new users.
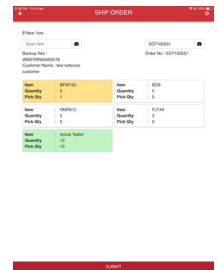

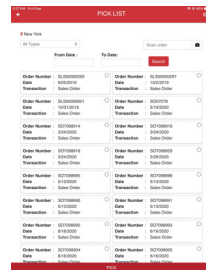

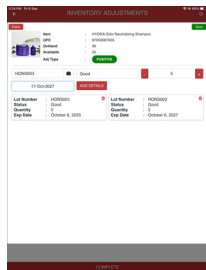

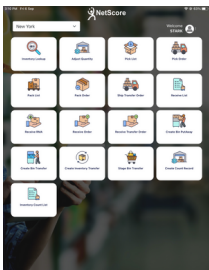

### Cross-Platform Compatibility
It runs on a wide range of devices, including Android and iOS tablets or rugged handheld units, offering flexibility in device choice and seamless warehouse operations.

### Efficient Inventory Management
Manage key warehouse tasks like inventory counts, transfers, and adjustments directly from your mobile device, streamlining processes and saving time across your operations.

### Customizable Label Printing
Warehouse users can customize and print packing slips and labels for items, bins and shipping at the time of picking and receiving inventory.
